**Re: Build another Circuit in the Sydney Basin – Your position.**

Dear Sir / Madam,

I am a passionate rider of Motorcycles and since the closing of Oran Park, I see the need for a new purpose built Motorcycle Sports Circuit to be built within the Sydney Basin.

In past years NSW has lost Amaroo Park, Warwick Farm, Liverpool Speedway and Castlereagh Drag Way. Now, due to the closure of Oran Park, Eastern Creek is the only motor sport and driver training facility within the Sydney Basin, the rest have closed yet the demand has never been higher and the facilities have never been more needed.

Eastern Creek is controlled by the Australian Racing Driver's Club and is completely booked out for 2010 mostly to Car Clubs. There is NOT even a round of the 2010 Australian Road Racing Championship in NSW and there will not even be a NSW Road Racing State championship in 2010, the promoters could not get dates for Motorcycles on the only track in Australia that was built by the NSW Government specifically for Motorcycle racing - Eastern Creek.

In 2007 there were 14 Motorcycle Road Race Meetings at Eastern Creek, this year there will only be 3 Motorcycle Road Race meetings for modern motorcycles under a Motorcycling Australia permit, again no track dates are available. There is very limited access for Rider Training so Training must mostly be done on Public Roads.

I see a need for a new Circuit to be used for Motorcycle sport, ride days and rider education as well as a venue for International Motorcycle events like MotoGP and World Superbike that can be used to place Sydney in the minds of the millions of people around the World whom follow Motorcycle Sport so they see Sydney as a place to visit.

By return letter I ask that you please advise if you are in favor of an additional Circuit as I describe and what meaningful action will you will take to plan and ensure such a Circuit is built. Should you not be in favor, please advise why.

Your answer to my question may have an influence on my Vote at the up coming Election.

Yours faithfully,

From:
